## We help you hire and get hired for remote work!

During our researches we've come to a conclusion that there are many benefits of working remotely and employing remote workers. Are you interested in finding out which?

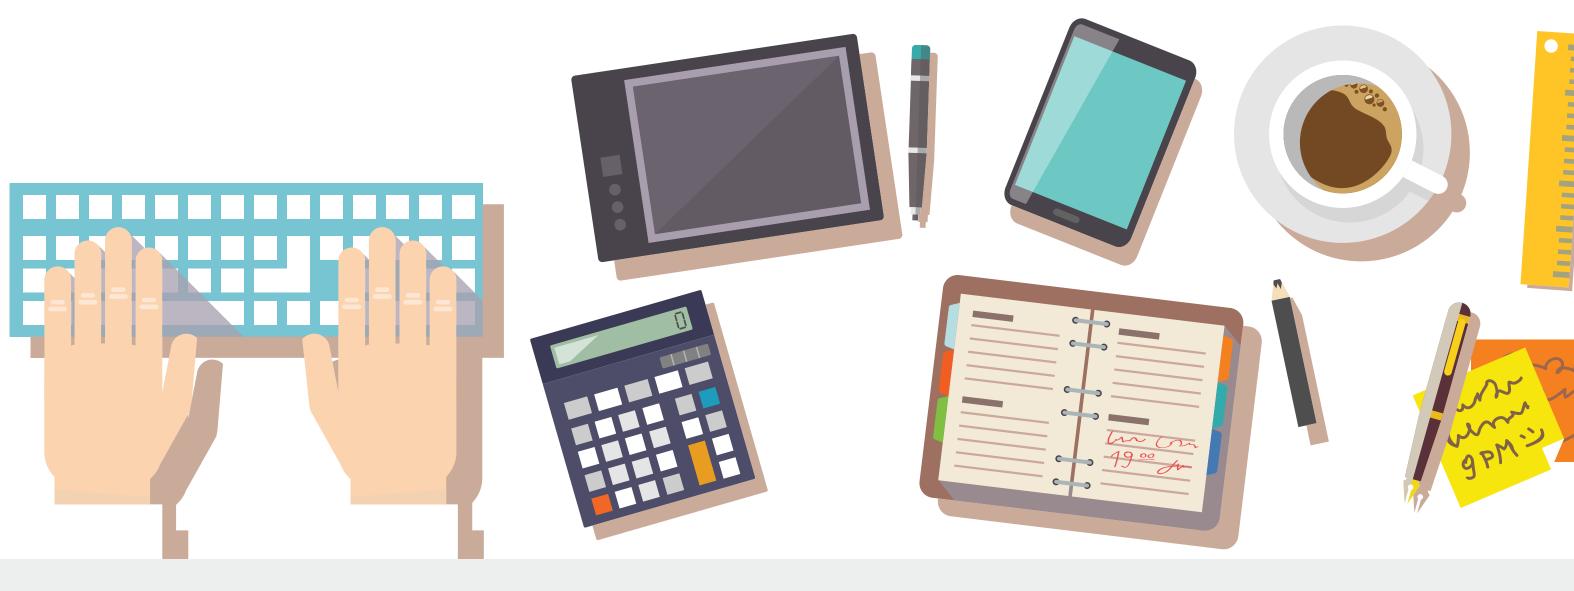

Click the button below to start discovering.

We've come to an idea of our own remote work model, but we've also faced certain obstacles.

We had to ensure both sides are satisfied when using our platform. But how?

Apart from giving people career opportunities, we've decided it is time for companies to get rewarded when employing.

Find out more

# What have we discovered?

Every person gets a career opportunity

Remote work is less stresfull and comfortable

Improvements for business in every regard

Collaboration with world's experts and companies

Reward system offers motivation for employers

## What can we offer?

To motivate you and show you the benefits you get when you start using our site, we have decided to make a reward system for employers.

You shouldn't be worried about your data protection and communication with your remote workers.

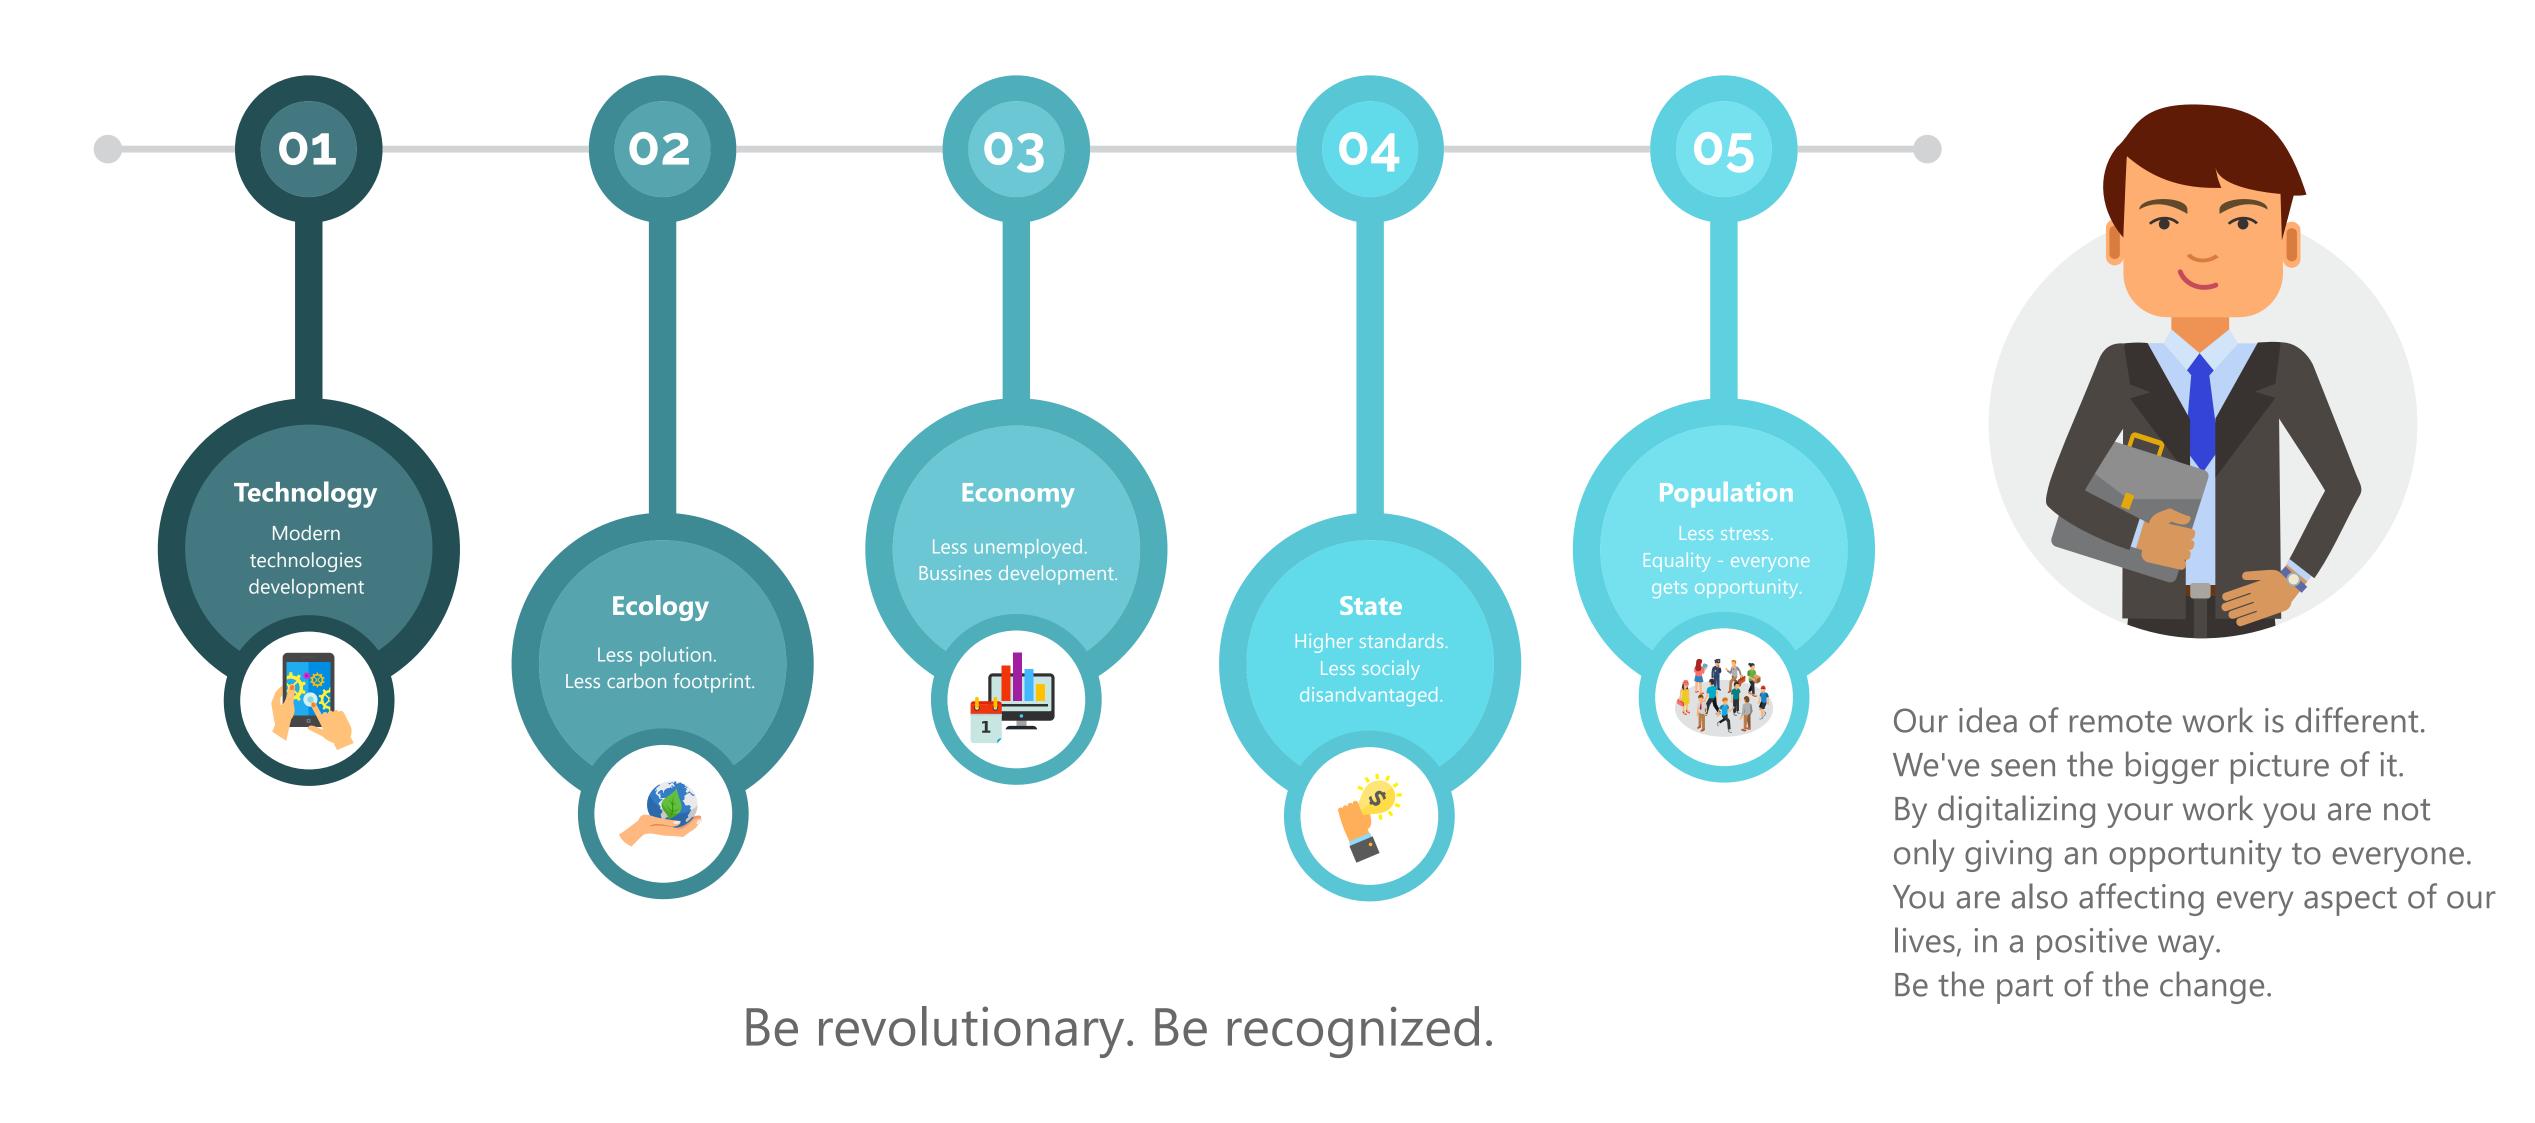

Our team worked hard to make it easier for you. By using our services, you get access to the software with various features, all for free.

Since we know many companies are pretty sceptical about digitalizing their work and allowing their workers to do everything that can be done outside the office from the comfort of their homes, we've prepared some examples for you to see how one work place at home can change a lot of things.

To make it easier for you, we've also included options for posting a new job offer, signing job contracts and contacting your potential workers.

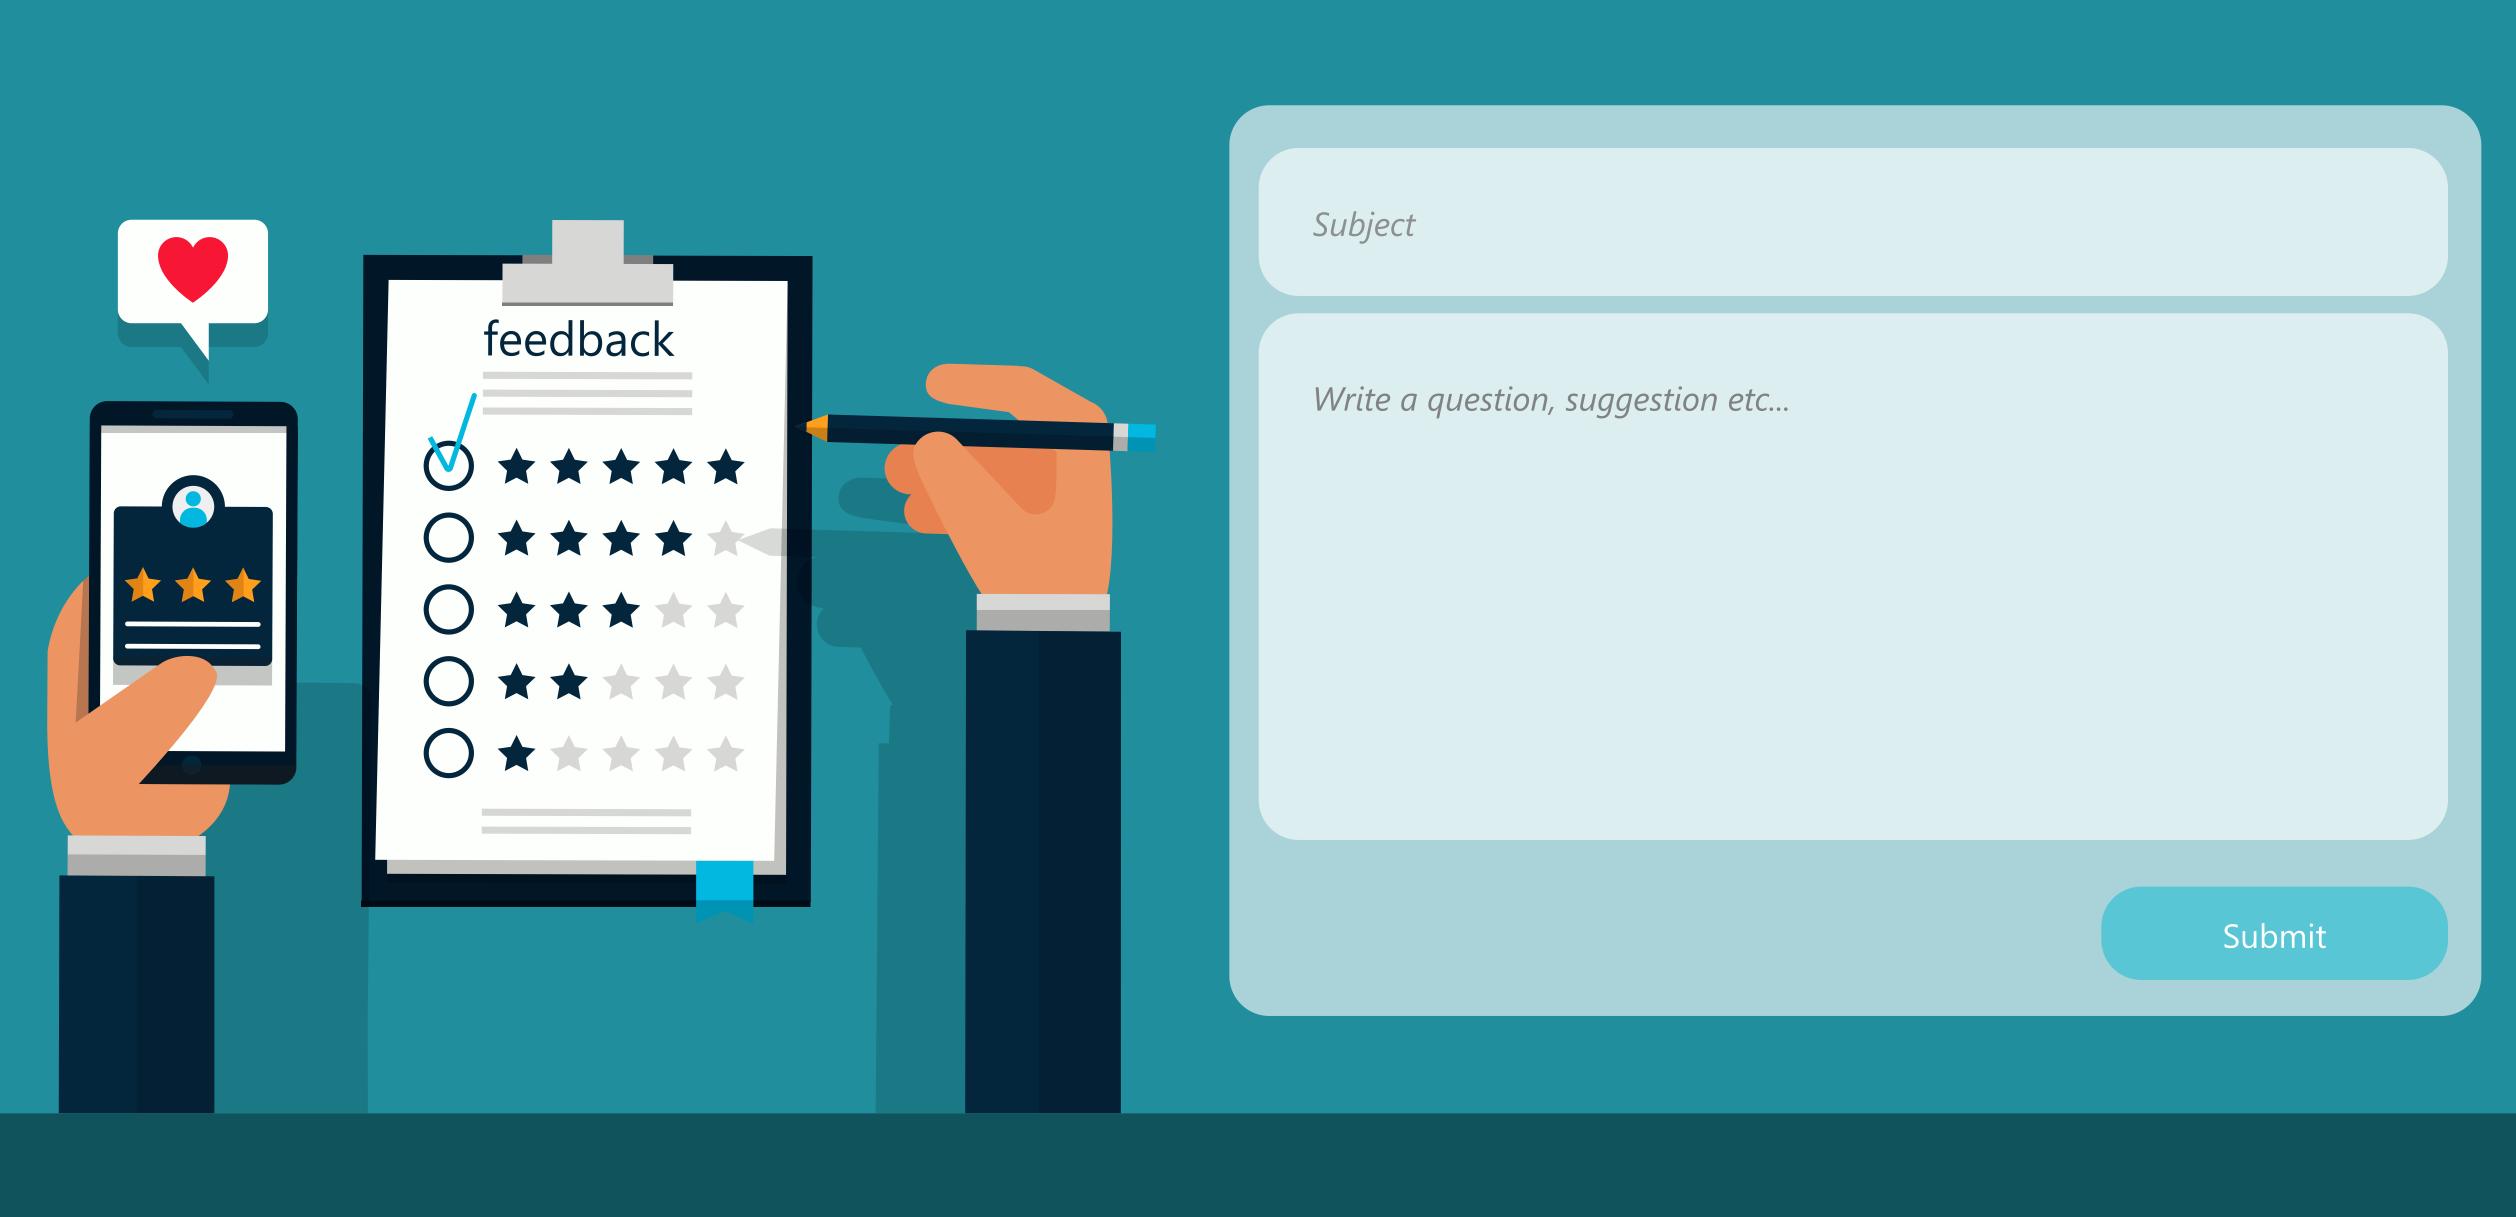

I want to know more!

# Why do we think remote employing can be revolutionary?

# We appreciate your opinion. Write to us.

Got any questions, suggestions, critiques?

# and get rewarded

Get rewards from our sponsors.

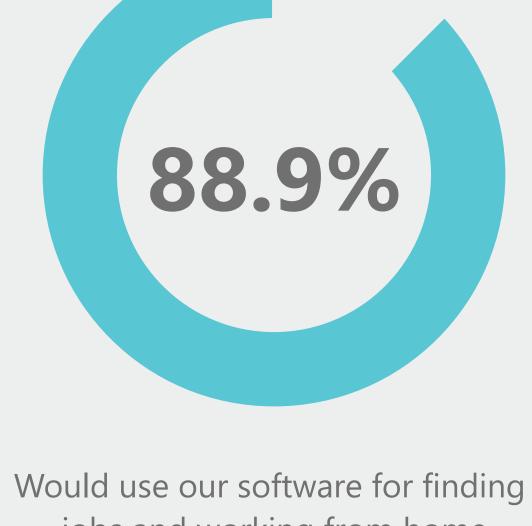

Reach the highest level to get our main prize - pay less taxes for your business\*!

\*more about paying less taxes in **Legal Information**.

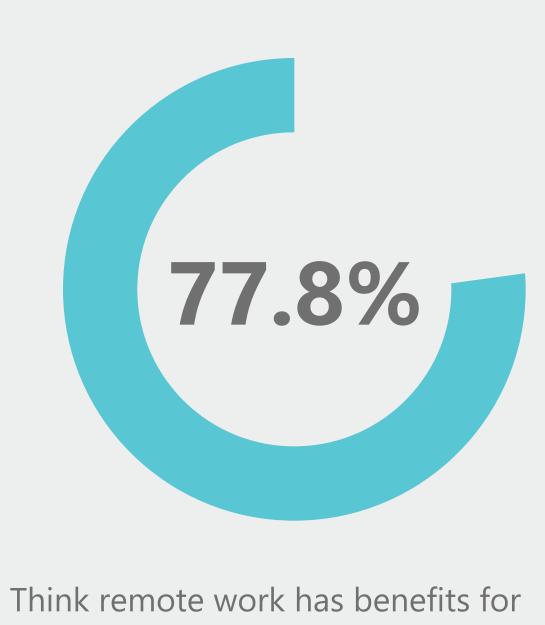

Our researches have shown us quite positive thoughts about working from home\*

a good opportunity

jobs and working from home

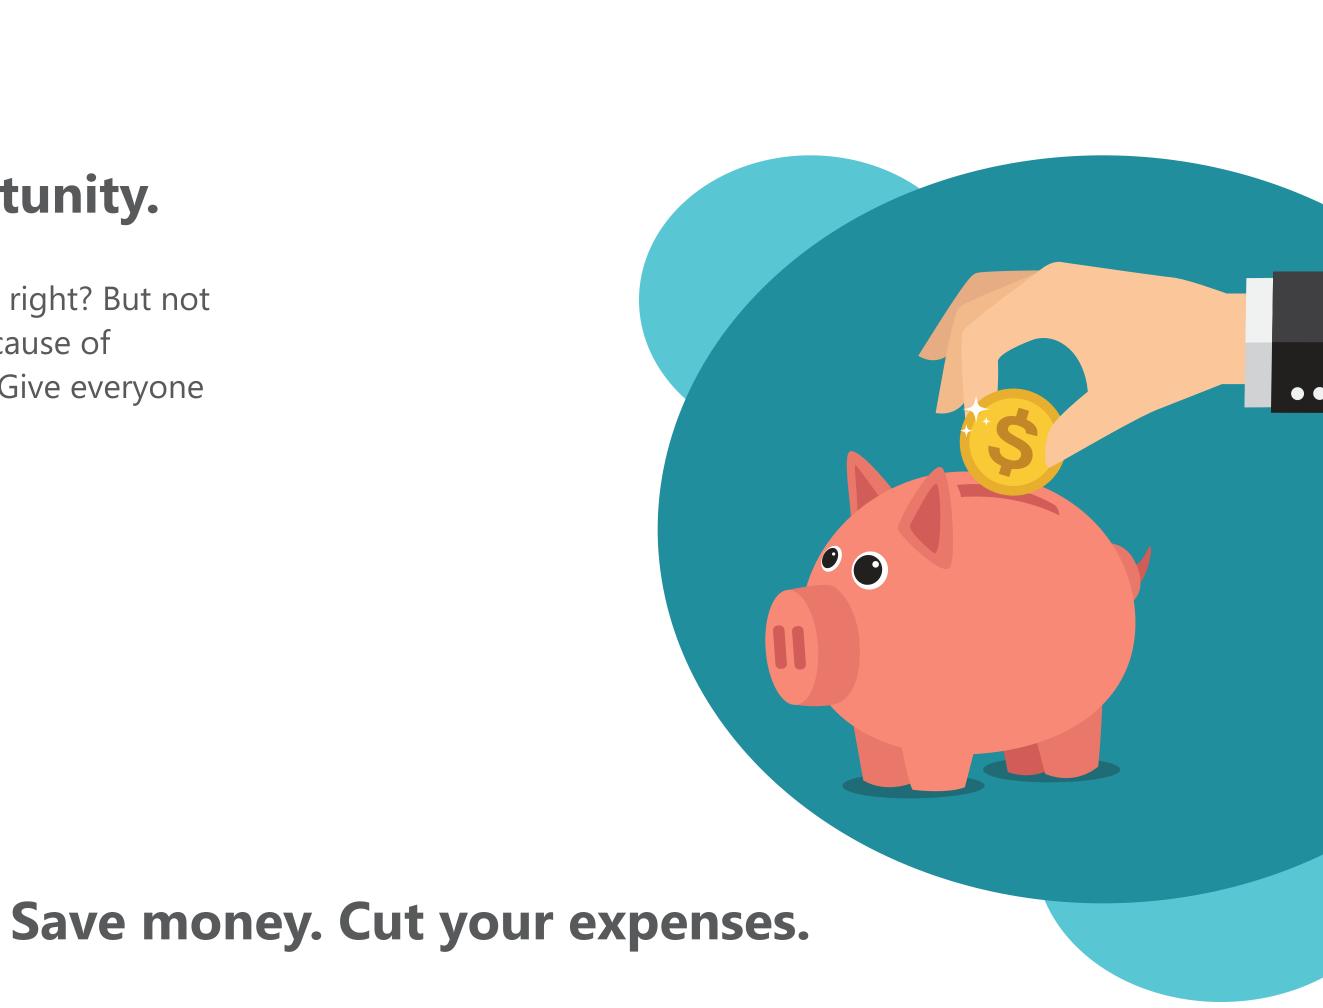

both employers and employees

\*reasearches done by our group of designers and developers in the process of creating the software. Reasearch was done online using Google Forms in the period of Covid-19 epidemic, when we got the idea of work digitalizing. Data taken from **Google Forms**.

### Most of the people can work from home, right? But not everybody can work outside of home because of

certain circumstances. Let's change that! Give everyone equal jobs and career opportunities.

### Employing people on our site for remote work can surely cut your expenses and at the same time you get rewarded for it.

How? Think about it. You have to pay less money for transport, yet you get rewarded for it! How cool is that?

# closer to the future.

Digitalization. Innovation. One step

with professionals and partners from all around the world. Isn't it great? Take your business to a world level.

Bring the future to your company. Digitalize your business.

Technology makes our lives easier, so why shouldn't we use it?

Implementing new ways of work, you educate your workers,

stay up-to-date to with modern technologies and having

We've already seen many benefits of remote work, but

you haven't seen it all yet! Think of the impact it could

have on your company and business. You get to work

easier access to data. Let your company be in clouds!

# Still have second thoughts? Don't worry. Our team of developers were thinking of everything that could be an obstacle for our users.

and data security? We thought of everything!

You're still worried about communication

We are an awesome team, aren't we?

So, we've decided to provide you with means of communication

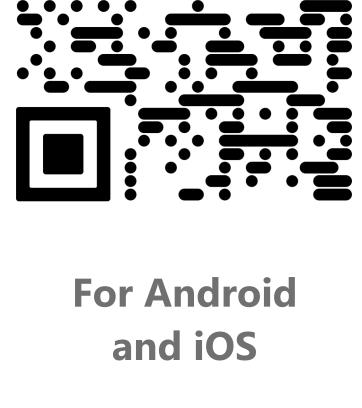

and data security software, with all the needed features, all for <u>FREE!</u>
